Philosophy of Fota Island Spa

The concept of Fota Island Spa revolves around well-being, offering a unique blend of personal rejuvenation, vitality restoration, and holistic relaxation. Nestled within one of the most breathtaking natural settings on the Irish coast, it provides a sanctuary of tranquillity.

Breathe in the pure, fresh air, take in the stunning views of the resort's mature woodlands, and immerse yourself in the serene luxury of Fota Island Spa. This is the magic that awaits you at one of Europe's finest spas.

For many, the ultimate indulgence in self-care is a soothing spa treatment—an opportunity to rejuvenate both body and mind. In a profession dedicated to caring for others, you can feel completely at ease in the expert hands of our skilled male and female therapists. Let go, unwind, and allow yourself to drift into a deep state of relaxation as you enjoy your treatment.

Fota Island Spa takes its commitment to sustainable practices seriously by taking the below measures:

At Fota Island Spa, we prioritise sustainability. All professional product containers are recycled or reused, and we have eliminated single-use plastic cups, encouraging visitors to bring reusable bottles. Our glass bottles are refilled using a filtered water system.

We use low-energy light bulbs, recycle all paper, and operate an in-house, eco-friendly laundry facility to reduce transport emissions. Waste bins are separated into food, recycling, and general waste.

Committed to reducing our environmental impact, we continually strive to improve our sustainability practices. This commitment is central to our business strategy, and we hope to inspire our customers, clients, suppliers, and stakeholders to do the same.
